

studio | one

Reserve a studio for you  
(and a family member)  
and your face can  
go topless

## Jonesing for your favorite exercise or workout program sans mask?

Book your preferred studio on the **Club App**, utilize the equipment in that studio, get a great workout in, sanitize for safety and mask back up to head back out.

Members continue to be required to wear a mask at all times in the club until the door of reserved studio closes and anytime the studio door opens; whether another person enters accidentally or when leaving the studio - no exceptions. All equipment desired in the studio must be brought there with a mask on, cleaned prior to going back to its standard spot and only put back when cleaned and by a person with a mask on. Member is requested to change sign on door when in use and after they have personally cleaned the equipment they used. This special program is only offered on a first come, first served basis and cannot be guaranteed as an amenity on a permanent basis.
